

University of Minnesota Supercomputing Institute  
for Digital Simulation and Advanced Computation

**Non-faculty PI Eligibility Form**

Academic professionals (all academic job classifications 97XX) are eligible to be PIs if their research is not part of research led by a University of Minnesota faculty member (academic job classifications 94XX) and if the research contributes to the goals and efforts of their University department or center and/or to the University of Minnesota as a whole.

Please note that for research led by a University of Minnesota faculty member, that faculty member should be the PI.

This form must be submitted to the Supercomputing Institute by the academic professional's dean, department head, or center director (if a faculty member; if the center director is not a faculty member, the form must be submitted by the dean or department head). Please submit the form to Barbara Opal at [projects@msi.umn.edu](mailto:projects@msi.umn.edu) or via campus mail to 599 Walter, campus code 3721.

Each request is reviewed by the Director of the Supercomputing Institute. If approved for PI status, the new PI must also submit the new project form.

Date: \_\_\_\_\_

Name and title of academic professional requesting PI status:

\_\_\_\_\_

Department: \_\_\_\_\_

Name of Dean/Department Head/Center Director: \_\_\_\_\_

Phone Number: \_\_\_\_\_ Email Address: \_\_\_\_\_

The above-mentioned individual is eligible to be a PI at the Supercomputing Institute based on the criteria noted above.

**Signature of Dean/Department Head/Center Director:** \_\_\_\_\_

(Email sent from the Dean's/Department Head's/Center Director's email address will be accepted in lieu of a signature.)
